

Cook Turkey Quicker with the NESCO High Speed Roaster

Have Enough Space to Cook Everyone's Holiday Favorites

The holidays can be a time of much preparation and planning. Many a cook wants to impress their guests with traditional dishes, and perhaps, even wow them with a new spin on an old classic. However, all these dishes take time and oven space.

[NESCO](#) has an answer to save you precious time and give you back some oven space. The [NESCO High Speed Roaster](#) can cook up to an 18-pound tasty turkey without taking up an inch of oven space. Save the space for savory dressing, creamy green bean casserole, and pumpkin pie.

[Best Reviews Guide](#) named the NESCO High Speed Roaster as one of the 10 Best Turkey Roasters in October 2021.

The NESCO High Speed Roaster is Easy to Use and Economical

To get started, simply plug in the High Speed Roaster and adjust the digital timer. Set your turkey vertically on the removable cooking stand.

The clear glass lid allows you to easily check the progress without letting heat escape. It's impossible to overcook because there is a 120-minute cooking setting with an auto-off function.

The innovative NESCO Roast-Ryte® technology uses infrared heating elements to cook your turkey internally while searing the skin to a crispy golden brown. This High Speed Roaster is more economical than a turkey fryer because you don't need to purchase frying oil or propane.

When the cooking is finished, enjoy more time with your guests because cleaning the NESCO High Speed Roaster is quick and easy. The interior surface is nonstick, and the see-through lid and cooking stand are both dishwasher-safe.

The High Speed Roaster can be used for everyday cooking as well. It can cook smaller turkeys, chickens, and roasts to a delicious finish. The NESCO High Speed Roaster is one appliance that you will be happy to have during the holidays and all year long.

NESCO: Your Key Ingredient

At NESCO, we believe life is an occasion worth celebrating. We're dedicated to being Your Key Ingredient in those celebrations by making cooking enjoyable again with our complete

line of innovative small kitchen appliances and accessories. NESCO began as the National Enameling and Stamping Company and created the first Roaster Oven in 1931. NESCO is currently headquartered in Two Rivers, Wisconsin.
