Cooking Gourmet in a Small Kitchen

NESCO Double Burner Provides a Space-Saving Cooking Surface

Love cooking for family and friends? Think a tiny kitchen means you have to sacrifice gourmet capabilities? Think again. With NESCO, cooking gourmet meals in even the tiniest of spaces has never been easier.

A gourmet kitchen might have professional-grade appliances like a six-burner gas stovetop, dual ovens, and a warming drawer, but you don't need all that to cook gourmet food. The compact, sleek design of the NESCO Double Burner is perfect for the space-

saving needs of any small kitchen.

The NESCO Double Burner and its two large cast-iron burners allow for independent cooking at different temperatures for ultimate multi-tasking capabilities—a key component of many gourmet recipes like this Surf N Turf recipe featuring steak and shrimp.

“These aren’t the hot plates of the past,” says Dan Kuenzi, senior vice president of sales and marketing at NESCO. “Our hot plate has two individual burners and maintains a consistent temperature allowing you to sauté mushrooms, onions, fresh herbs, eggs, sausage, or just about anything safely and efficiently.”

You can make anything on the NESCO Double Burner that you can on a traditional stovetop. Using pots, pans, and even a wok, the Double Burner can effectively double the cooking surfaces in any space.

NESCO Double Burner Brings the Kitchen Anywhere

From small apartment kitchens to cottage kitchenettes and dorm rooms, the NESCO Double Burner allows you to master even the most complex of recipes, but its convenience transcends the kitchen. At just 11 pounds, the Double Burner is conveniently portable as well—making it great for RVs, the lake, or the campsite.

It’s powered by a traditional outlet and has a variety of safety features to prevent overheating, so you can bring gourmet cooking to wherever you need it.

“Just because you’re on-the-go doesn’t mean you have to

sacrifice good food," says Kuenzi. "The Double Burner hot plate is great for preparing gourmet meals any time any place."

NESCO makes tools and equipment that fit your life. Everything we create is for the love of food and family. Let the NESCO Double Burner help you create food your family will love.

NESCO: Your Key Ingredient

At NESCO, we believe life is an occasion worth celebrating. We're dedicated to being Your Key Ingredient in those celebrations by making cooking enjoyable again with our complete line of innovative small kitchen appliances and accessories. NESCO began as the National Enameling and Stamping Company and created the first Roaster Oven in 1931. NESCO is currently headquartered in Two Rivers, Wisconsin.
