Enjoy More Of Your Summer With Easy Meal Prep

NESCO’s Vacuum Seal Kit keeps food fresh longer

Some planning and advanced meal prep is one of the best ways to save time while still being able to enjoy a home-cooked meal this summer. NESCO’s Vacuum Seal Kit keeps meals already prepped fresh for longer, and makes organization easy.

Life is busy, and the summer makes it busier. You’re still working and you want to get outside to enjoy the beautiful weather. Eating healthy and having a family dinner shouldn’t be sacrificed when you have less time at home.

Meal prep can be extremely helpful, and your future self will thank you. When you have a free day, cook up a week's worth of meat to use for those busy summer days. Preserve it using NESCO's Vacuum Seal Kit to keep your food fresh for the days ahead.

One of our favorite summer recipes is pineapple teriyaki marinade for chicken. This recipe is easy and delicious! Simply combine and mix the ingredients listed and let the chicken marinate in a Vacuum Seal Bag for at least half an hour. You can grill it immediately or keep it fresh using the Vacuum Seal Kit and enjoy it later in the week!

The perks to using NESCO's Vacuum Seal Kit

The NESCO Vacuum Seal Kit comes with a cordless motor and vacuum pump along with five reusable vacuum seal bags to keep your food preserved for longer and eliminate freezer burn. The vacuum seal bags establish organization in your fridge or freezer, as they are easy to stack and take up minimal space. They are also perfect for sous vide cooking.

In addition, you get two 600 mL and two 800 mL vacuum seal storage canisters. These reusable containers are more secure and freezer-friendly than other brands, ensuring no freezer burn. These storage containers can also be used to keep food fresh longer, such as dehydrator fruit rollups. A charging base and wall adapter are also included with the Vacuum Seal Kit to make charging your pump as convenient as possible.

For additional bags, the vacuum pump works with NESCO Hand Held Vacuum Sealer Bags, models: VS-10HB and VS-11HB.

Time is saved for day-of cooking, and food lasts longer when

using the Vacuum Seal Kit. With foods lasting longer, you save money and food waste is reduced, so it’s a win-win.

NESCO: Your Key Ingredient

At NESCO, we believe life is an occasion worth celebrating. We’re dedicated to being Your Key Ingredient in those celebrations by making cooking enjoyable again with our complete line of innovative small kitchen appliances and accessories. NESCO began as the National Enameling and Stamping Company and created the first Roaster Oven in 1931. NESCO is currently headquartered in Two Rivers, Wisconsin.
